

With over 100 years of experience in the tyre industry, our team is dedicated to enhancing safety for workers in the mining and transportation sectors.

The Kleva Cage is a global solution for the safe transportation of fully inflated ready for use tyre and rim assemblies, providing a truly circular delivery system.

The Kleva Cage is a certified engineered design, fabricated from high quality steel and coated to ensure it is tough enough to handle Australian conditions.

## MOVE TYRE INFLATION OFF-SITE, STORE SAFELY ON-SITE

- ❑ IMPROVING ASSET AVAILABILITY
- ❑ RECYCLING END OF LIFE TYRES AND REMOVING PLASTIC WASTE
- ❑ SAFE TYRE INFLATION, REMOVING YOUR TEAM AWAY FROM THE ENERGY SOURCE
- ❑ FASTER TYRE CHANGES, LESS DOWNTIME, LESS MANUAL HANDLING
